### Quota in promotions

- ❖ The Supreme Court has turned down the Union government's plea to do away with the requirement of collecting quantifiable data by the Centre and states.
- ❖ That data is to determine the representation of people belonging to Scheduled Castes (SCs) and Scheduled Tribes (STs) while implementing reservation in promotion.
- ❖ State is obligated to collect quantifiable data as per the court's judgment in M Nagaraj (2006) and Jarnail Singh (2018).
- ❖ Collection of data has to be for each category of posts for the entire service.
- ❖ The Central government must determine a time period to revisit the reservation policy after ascertaining the percentage of posts occupied by SCs/STs.
- ❖ Assessment on the inadequacy of representation of the reserved categories in promotional posts should be left to the states.
- ❖ With the recognition of 'cadre' as the unit for collection of quantifiable data, the court has also set aside its earlier judgment in the B.K. Pavithra case of 2019.

- ❖ The 2019 judgment by the Supreme Court in BK Pavitra case upheld the validity of the 2018 Reservation Act that introduced consequential seniority for SC/STs in Karnataka public employment.

#### ***Meaning of cadre***

- ❖ The term 'cadre' means the strength of a service or part of a service sanctioned as a separate unit.
- ❖ It is the choice of a State to constitute cadres.
- ❖ The entire service cannot be considered to be a cadre for the purpose of promotion from one post to a higher post in a different grade.
- ❖ The entire exercise of reservation in promotions would be rendered meaningless if data pertaining to the representation of SCs and STs is done with reference to the entire service.
